

RANGE OF UNIT DOSE MACHINERY

SD9

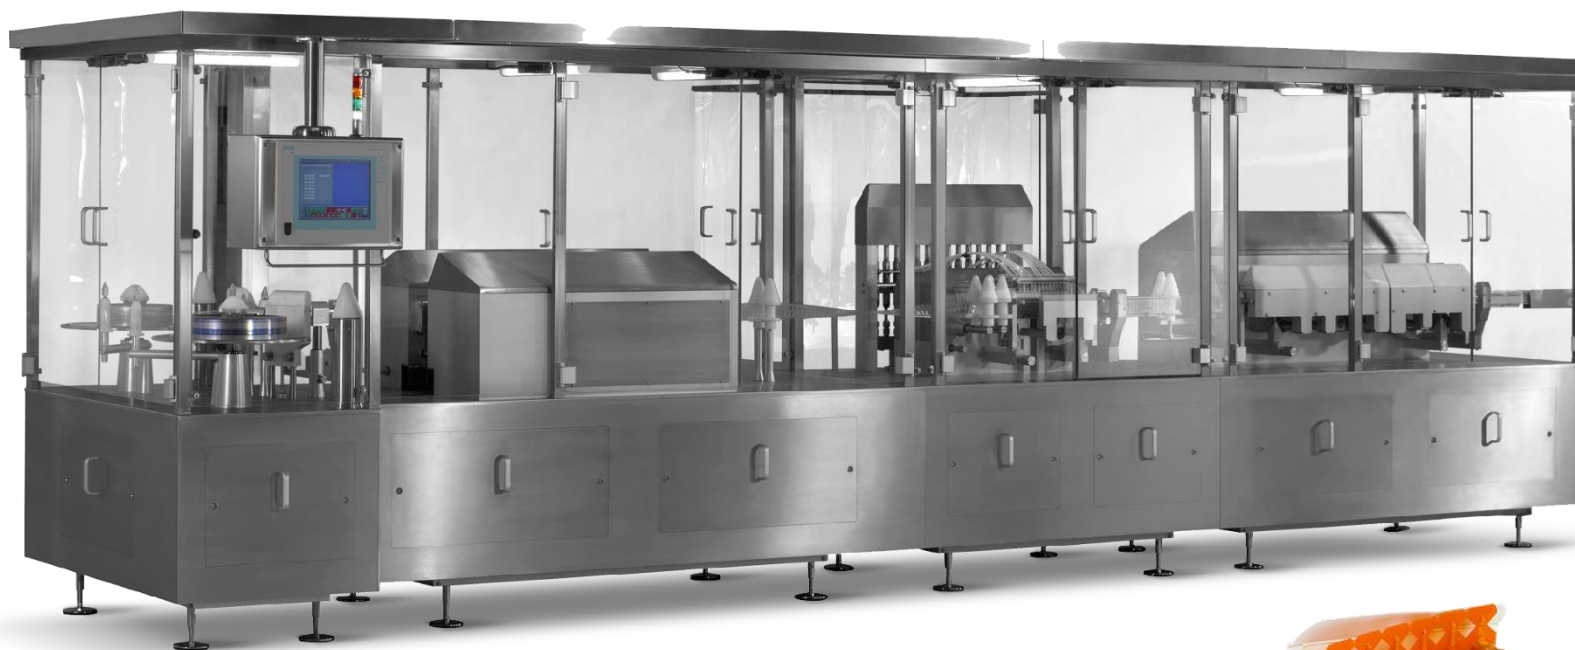

SARONG

03

Automatic Vertical ThermoForm, Fill & Seal machine for medium production
Max. Output 18.000 unit-doses/hour

SD15

SARONG

04

Automatic Vertical ThermoForm, Fill & Seal machine for high production
Max. Output 30.000 unit-doses/hour

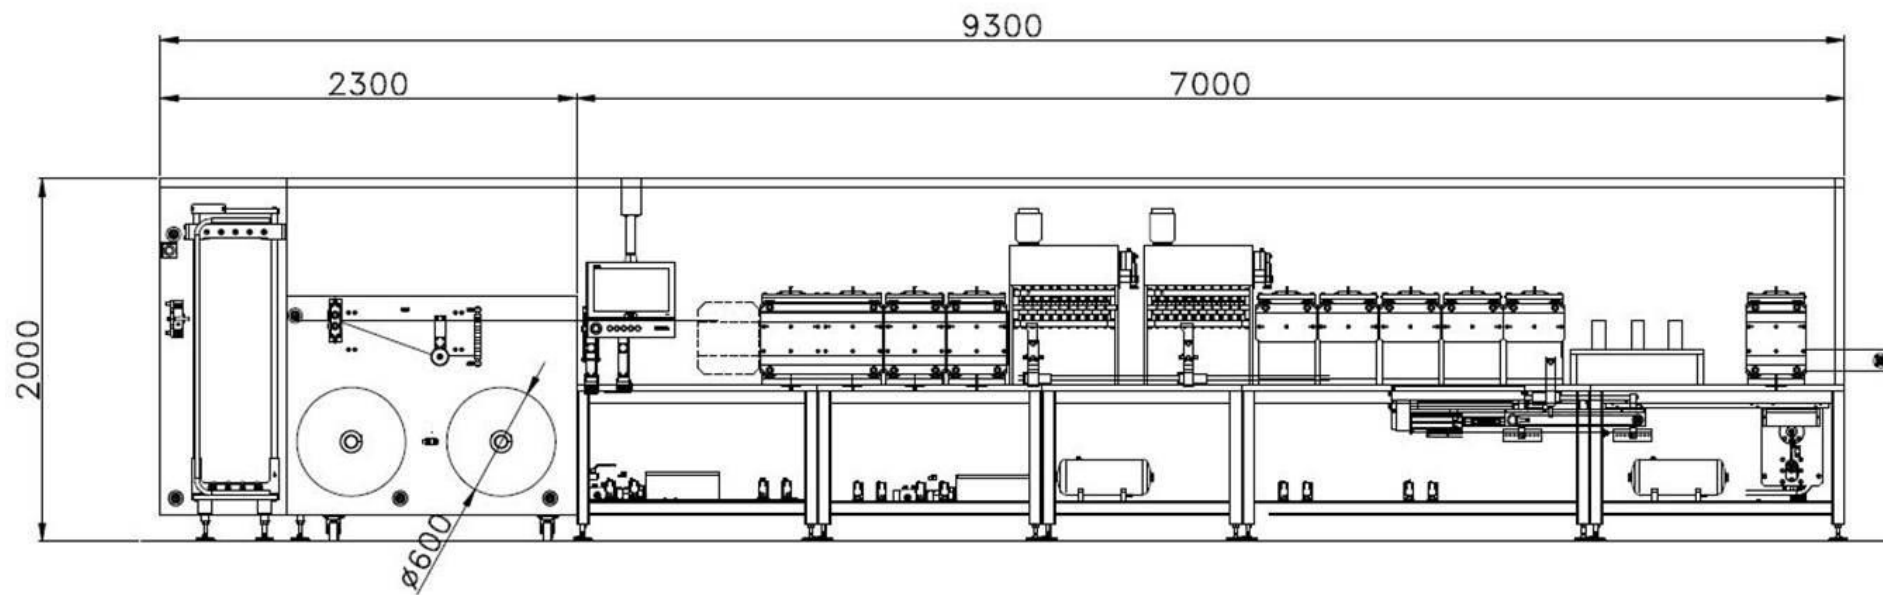

SD20

COMING
SOON

SARONG

05

Automatic Vertical ThermoForm, Fill & Seal machine for high production

Max. Output 40.000 unit-doses/hour

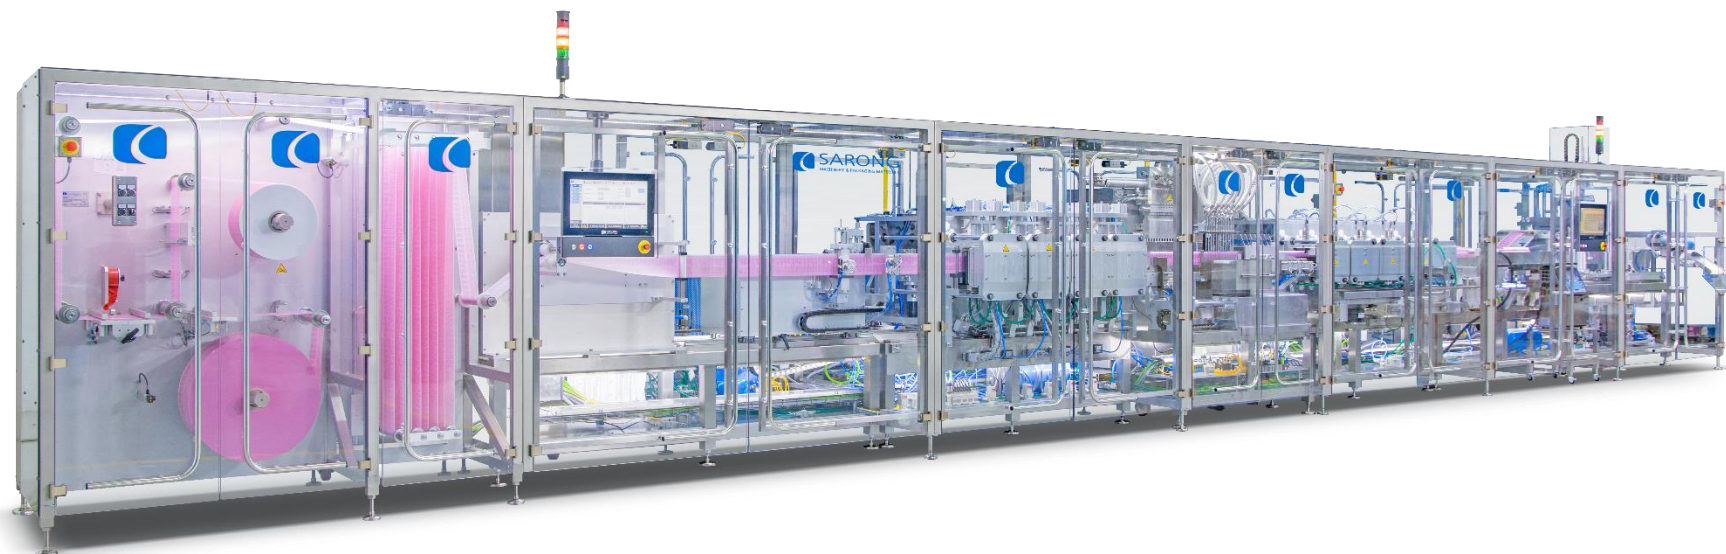

SD21

SARONG

06

Automatic Vertical ThermoForm, Fill & Seal machine for high production

Max. Output 42.000 unit-doses/hour

FP40

SARONG

07

Automatic Vertical ThermoForm, Fill & Seal machine for high production

Max. Output 36.000 unit-doses/hour

MIDI MAX

SARONG

08

Automatic Horizontal ThermoForm, Fill & Seal machine for high production of customized single serve plastic containers

Max. Output 66.000 unit-doses/hour

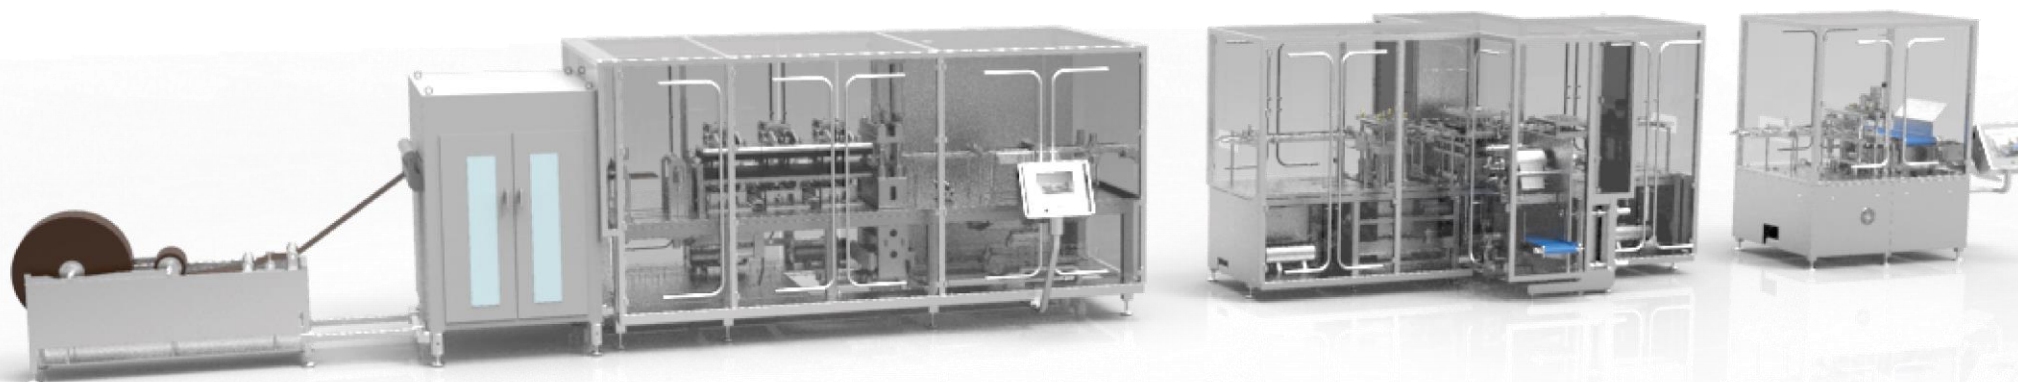

EASYLINE 8/16

SARONG

09

Automatic Horizontal ThermoForm, Fill & Seal machine for high production

Max. Output 42.000 capsules/hour

03 | SUSTAINABLE MATERIALS

SUSTAINABILITY AS A NEW WAY TO CONCEIVE BUSINESS

SARONG

11

Sarong is strongly committed to enforce sustainability in managing production and in designing the features of its machines, materials and end-products

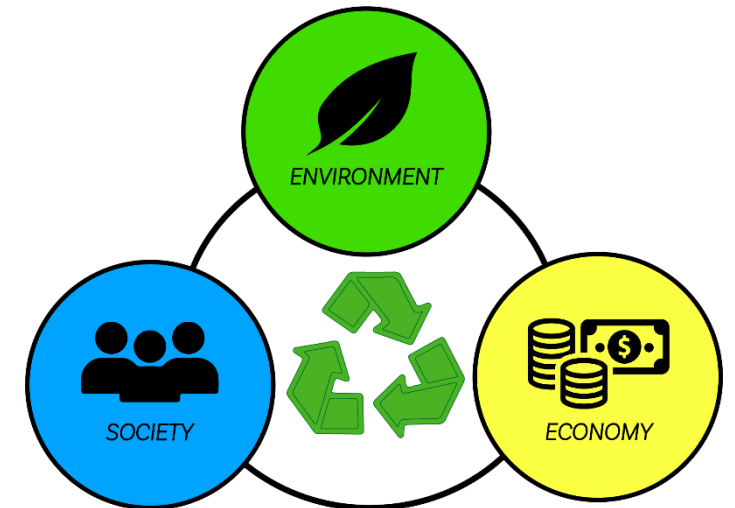

► Sustainable use of existing materials:

Sarong promotes packaging redesign in order to reduce material consumption.

► Enforcing sustainable materials:

Sarong promotes the substitution of standard resins with sustainable materials, either recyclable, bio-based or natural.

SUSTAINABILITY IS:

SARONG
